

Associates

Passion for art is not a prerequisite for joining us!

We recruit the best legal brains from a wide variety of backgrounds. Our formula for success is rooted in the diversity of our well-rounded and talented community. From a Commonwealth Games gold medallist badminton player to an Electrical Engineering scholar from the National University of Singapore, many of our lawyers have brought with them distinctive skills from outside of the legal world, and we celebrate their unique perspectives and abilities.

We strive for a working environment that allows our highly motivated and driven lawyers to maintain a healthy equilibrium between work and play.
